## Shooting with a difference

EACH month Shutterbug Photographic group members visit different locations for a 'Photo Shoot.'

This month the group made a departure from the usual format, February's photo shoot (Shop Window) involved photographing two separate villas internally and externally with a view to forming a collage of five to six photo-

graphs suitable for displaying in an estate agents window.

Anyone interested in joining Shutterbug Photographic group (from the beginner or more professional person) should telephone John on 639 810 574 or alternatively visit the website [www.shutterbugs-spain.org](http://www.shutterbugs-spain.org) to obtain more information.
