# Shutterbugs Group enjoy a perfect photo-taking opportunity

## CASARABONELA

Members of Shutterbugs Photographic Group travelled to the village of Casarabonela to the Cactus Botanical Garden "Mora and Bravard" for their latest photo shoot. The garden contains one of the largest collections of cacti and succulents in Europe with over 2,500 different specific origi-

nating from many different countries and continents. The group went on an informative guided tour through the gardens. The best photographs will be selected on the 4th of July at the Shutterbugs' next meeting and the winning photographs can then be viewed on the website [www.shutterbugs-spain.org](http://www.shutterbugs-spain.org).
